- \*Optional – coloring tools, die cut /punch, embossing folder, Cut & Emboss Machine

**CLUE #2**

Score the 5 1/2" x 8 1/2" cardstock @ 4 1/4.

**CLUE #3**

With the portrait side at the top of the trimmer cut at 1 1/4 to the score line on each side.

**CLUE #4**

Fold the card on the score line with the flaps on the front of the card. Adhere the 2 3/4 x 4 designer series paper to the center front panel of the card. Adhere the 1 x 4 DSP pieces to the side panels on the front and inside the card. \*All 4 pieces can be the same or 2 of one pattern and 2 of another pattern.

### CLUE #5

Adhere the Basic White panel to the inside center of the card base. The inside panel can be stamped with a sentiment of your choice or left blank to write on.

### CLUE #6

Adhere the 1 x 5 1/2 DSP to the 1 1/4 x 5 1/2 piece of cardstock. Adhere this strip to the card front with a strong adhesive. Only add adhesive to the ends to connect the flaps.

\*Do not put adhesive on the middle section. Allow the center piece of the card base to move freely.

### CLUE #7

Stamp a "hidden message" on the 3/4 x 2 3/4 white cardstock. Adhere this piece to the center front panel directly underneath the "bridge" panel. (The bridge piece will hide the message until the card is opened.)

### CLUE #8

Create a focal piece for the front of the card. Stamp/Punch/Die Cut sentiment and/or image. Decorate/Layer as desired. You will adhere the focal piece to the center of the "bridge" making sure you only adhere it to the strip so the center piece moves freely.

### CLUE #9

Does your card need anything else? Embellishments? Trim/Ribbon? Add that now.

### CLUE #10

Decorate your envelope (stamp/emboss/add DSP) to coordinate with your card.
